

Broadcom Virtual Mainframe Technical Exchange 2023

Tuesday, October 3														
	General and NextGen Mainframer Track	General and NextGen Mainframer Track	AIOps and Automation	AIOps and Automation	Core Infrastructure Management and Open Mainframe	Core Infrastructure Management and Open Mainframe	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Datacom and IDMS focus)	DevOps	DevOps	Workload Automation	Security	Security
9:00 - 9:50amET	<b>GEN01: Opening Keynote: Enterprise Resilience: Mitigating IT Mayhem</b>													
10:00 - 10:50amET			<b>AIA01: AIOps and Automation Keynote: What's Hot? What's New? What's in it for You?</b>		CIO02: Deploying Zowe CLI Configuration Across Your Organization		DMT05: Smooth Sailing Through Post Install with z/OSMF Workflows		DBM01: Automatically Generate a REST API for Your IDMS & Datacom Business Data	DEV13: Next Gen Mainframe App Dev: ChatGPT Makes Developers More Efficient		WAM11: Introduction to ESP	SEC11: Auditors, STIGs, Compliance and the Mainframe: What Does it Mean?	
11:00 - 11:50amET			AIA02: SYSVIEW: Install, Configure, Maintain, and Verify Made Easy With z/OSMF	AIA13: Don't Panic! How to recover from MICS Operational Job ABENDs with Style and Grace	CIO06: Zowe Event Management: The Bi-Directional Communication You've Been Waiting For				DBM03: Extending Database Availability with IDMS Shadow Reorg	DEV14: Unit Testing, and Record and Replay Test Automation		WAM10: Introduction to CA 7	SEC01: Security Keynote: Solutions for Ransomware (and Other Cyber Attacks)	
12:00 - 12:50pmET	GEN03: Critical Skills for Next-Generation Mainframers: Navigating the Mainframe Software Implementation Journey		AIA03: SYSVIEW/MOI: Setting Meaningful Thresholds	AIA18: Introducing MICS Rest API	<b>CJO01: Keynote: Broadcom's View on Mainframe Modernization : The Right Workload on the Right Platform</b>		DMT09: Monitor and Manage Storage with Vantage	DMT06: Db2 Recovery and Compliance: Present and Future	DBM11: Datacom Performance Gains From Adopting Latest Enhancements	DEV11: HB.js VS Code Extension: Light-Weight Remake of the HB.js Eclipse Plug-in		WAM07: Exploiting Analytics to Optimize Workload Scheduling	SEC08: Vanquishing the Passwords with Advanced Authentication Mainframe	

Broadcom Virtual Mainframe Technical Exchange 2023

Wednesday, October 4														
	General and NextGen Mainframer Track	General and NextGen Mainframer Track	AI/Ops and Automation	AI/Ops and Automation	Core Infrastructure Management and Open Mainframe	Core Infrastructure Management and Open Mainframe	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Datacom and IDMS focus)	DevOps	DevOps	Workload Automation	Security	Security
8:00 - 8:50amET			AIA04: Unleashing the Power of Broadcom: Exploring RESTful APIs Through Real-World Examples		CIO08: Getting Started with Broadcom Ansible Collections		DMT01: Data Management Keynote: A Data Management Strategy Featuring the Mainframe					WAM05: Administrator Playbook for ESP Workload Automation	SEC05: Securing Mainframe DevOps Beyond Development	
9:00 - 9:50amET			AIA12: OPS/MVS: Basics		CIO13: Address Real-World PDS and PDSE Situations Using PDSMAN	CIO16: Maximize your VSE performance with VSE Explore	DMT02: View/Deliver/Web: Everything You Want to Know About the All New Enhancements But May Be Afraid to Ask		DBM08: Datacom Monitoring with Sysview	DEV01 DevOps Keynote: Mainframe Application and Development Modernization		WAM09: Taking Control of Your Distributed Agents (CA 7 and ESP)	SEC12: Using PassTickets to Get a Single Sign-on Experience on Your Mainframe	
10:00 - 10:25amET	GEN10: We're Building the Next-Generation Mainframe Workforce – And You Can Too		AIA06: OPS/MVS: Writing Efficient Rules and REXX		CIO09: Easytrieve Revitalization: An Early Sneak Peek	CIO17: What's new with Zowe Explorer	DMT11: Successfully Deploying Web Viewer 14: Mastering Installation and Configuration	DMT08: The Final Hurdle to Db2 13: Access Path Changes and Rebinds with Plan Analyzer	DBM04: Modernize IDMS System Performance Monitoring Leveraging REST APIs	DEV09: Endeavor Web Service Business Value		WAM01: Workload Automation Keynote	SEC07: Beyond the Command Line of ACF2 and Top Secret	SEC14: Applying the Essential Zero Trust Mindset to Mainframe CI/CD and the Software Development Lifecycle End-to-End
10:30 - 10:55amET	GEN09: The Next Frontier in Secure Software Development and Supply Chain Security: SBOMs and Beyond		AIA05: SYSVIEW and SMF Management: MAN Files vs. Log Streams											
11:00 - 11:25amET	GEN14: Improving Mainframe User Productivity and Satisfaction	GEN06: Mainframe Data Wrangling: Preparing Your Mainframe Data for Use in AI Models	AIA08: OPS/MVS: Current Events, New Feature Review!	AIA16: NetMaster: Benefits of Enabling zERT	CIO03: Zowe CLI Modernizes Mainframe Development		DMT16: Pervasive Encryption for Tape - It's Already Here (CA 1 Flexible Storage)	DMT12: What's Coming in the Web Viewer r14.1?	DBM09: Using Datacom SQL Enhancements in SQL Query Tuning	DEV12: Introduction to Mainframe DevOps Suite		WAM08: Installation and Configuration of the Agent Manager for CA 7 and ESP	SEC02: ACF2 Top Secret Roadmap: The Power at Your Fingertips	
11:30 - 11:50amET	GEN11: What You Need to Know About Common Components and Services, Including SCRT Reporting		AIA14: OPS/MVS: Modern Management of Rules and REXX Programs											
12:00 - 12:25pmET	GEN07: Boost Mainframe Resilience with Software Risk Assessment	GEN12: YAML Crash Course for Mainframe: Writing, Editing, and Troubleshooting in ISPF and Beyond	AIA07: OPS/MVS: Maximizing Your Usage of BCPII Through the V2		CIO05: Automate and Optimize Using Zowe Conformant REST APIs	CIO15: I didn't know you could do that with XCOM Data Transport	DMT13: DBM-DS: Db2 DevOps REST API Overview		DBM07: Partner Insights: IDMS Hidden Treasures	DEV08: Developer Sandbox for any Mainframe SCM including ChangeMan, Endeavor, Librarian, or Panvalet	DEV05: Writing Web Service APIs Using CICS Artifacts	WAM12: Workload Automation Modernization – Embracing the Hybrid Cloud	SEC04: Recommended Methods for Quick and Easy Continuous Monitoring Using Compliance Event Manager	
12:30 - 12:55pmET			AIA15: OPS/MVS: System State Manager (SSM) Deep Dive				DMT10: How to Monitor and Manage DFSMSHsm Using Vantage							

Broadcom Virtual Mainframe Technical Exchange 2023

Thursday, October 5														
	General and NextGen Mainframer Track	General and NextGen Mainframer Track	AIOps and Automation	AIOps and Automation	Core Infrastructure Management and Open Mainframe	Core Infrastructure Management and Open Mainframe	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Datacom and IDMS focus)	DevOps	DevOps	Workload Automation	Security	Security
8:00 - 8:50amET	GEN08: Revolutionizing Software Maintenance: Unlocking the Power of Ansible Automation			AIA17: NetMaster: Using SmartTrace to Diagnose Real World Network Issues	CIO04: Unleashing the Full Potential of Zowe Explorer: Extensibility and Flexibility		DMT15: Show Me the Data: On the Premise and On the Cloud		DBM12: Datacom New Features	DEV07: Advantages of using Visual Studio Code with Endeavor		WAM02: CA 7 REST APIs Use Cases and Overview	SEC10: Security Insights & CIA: Compliance Reports Made Smart & Easy	
9:00 - 9:50amET	GEN02: Bridging the World Between 3270 SME and Next-Generation Mainframer		AIA11: Observability: Prioritize and Investigate Infrastructure Issues Based on Business Impact		CIO10: Unveiling Zowe Enterprise Necessity (ZEN) for Effortless Zowe Installation		DMT03: Introducing the New DISTMENU Option in View: Effortlessly Access Authorized Reports and Recipients		DBM06: Smart/RESTART: Broadcom Product Integration with IDMS	DEV06: How to Map Endeavor to Git with Bridge for Git	DEV15: Migrating to the Gen CSE on Linux	WAM04: Take a Deep-Dive Look at CA 7 REST APIs	SEC06: Top Secret and ACF2 Overlooked Features	
10:00 - 10:50amET	GEN13: Software Management Overview		AIA19: Get to Know Kubernetes for Mainframe Solutions		CIO11: Linux Backup, Restore, and Recovery with VM:Manager	CIO18: Exploring the new features of the Zowe CLI	DMT07: Converting Tables to Use TCP in PBR and PBR2 Tablespaces Using RC/Update and RC/Migrator		DBM10: Datacom Modern System Security Demands	DEV10: Explore DevOps for Mainframe Databases		WAM06: Introduction to the new ESP Web UI	SEC13: Basic USS Security for the Old-School Mainframer	
11:00 - 11:50amET	GEN05: The Jekyll and Hyde of Generative AI		AIA10: Mainframe Topology: Discovering Your Environment – From Change Management to Business Applications		CIO12: TPX Log Analysis – It's Really Your Friend		DMT04: The Now and Wow: A Showcase of Today's Most Impressive Features in Spool r14		DBM05: IDMS Extract, Transform, and Load with Test Data Manager	DEV02: Extending IBM z/OS Connect with HostBridge	DEV03: Continuous Adoption - keeping your Gen installations updated	WAM03: Automating Web Service (Cloud) Applications	SEC03: Implementing Just-in-Time Privileged Access on Any Mainframe Using Trusted Access Manager for Z	
12:00 - 12:30pmET	GEN04: How to Use Mainframe Resource Intelligence (MRI) to Fine-Tune Your Mainframe		AIA09: Root Cause Analysis with Alert Central		CIO07: Building and Delivering Secure Software: An Overview of Zowe's Zero Trust Architecture		DMT14: Cybercriminals Control Your Systems and Data – Now What?		DBM02: IDMS and Datacom: HostBridge Applications Modernization	DEV04: Restful APIs for your Gen Applications			SEC09: Argh... Certs, Certificates, Digital Certificates	
12:30 - 12:55pmET
