**EVENTS AND WEBINARS****Virtual User Group - Identity Security & API Management**

We have two upcoming Virtual User Group sessions for Identity Security & API Management. Our first event will take place on Thursday, October 21st, in Americas-friendly time zones. We will host a second session on Thursday, November 18th for EMEA-friendly time zones.

Both User Group events will include breakout sessions for API Management, Identity & Access Management, and Privileged Access Management. We will also have customer speakers who will discuss some of their key initiatives and priorities at their organization.

[REGISTER NOW - AMERICAS](#)[REGISTER NOW - EMEA](#)**KuppingerCole EIC - Presentation Recording**

Did you attend this year's KuppingerCole EIC event? If so, we invite you to view our session presentation recording. Vadim Lander, Symantec Identity Management Security Chief Architect and CTO, discussed the new realities that are driving the evolution of Identity and Access Management (IAM) and how organizations use IAM as a key pillar in the architecture for Zero Trust. Use the link below to watch the on-demand recording!
